

What is the WellComm Tool?

'WellComm' is a Speech and Language toolkit used nationwide by Early Years settings & Primary Schools, to help identify and assist children who may need additional support.

How we will use it

LCC have provided us with a WellComm screening Toolkit.

Our Wellcomm programme will be headed by our Language Leads

Each child from the age of 2yrs will be screened every term as to their understanding and use of language.

The toolkit is quick and simple to use, we have found that children enjoy the screening process, and it is used in a play based and fun way. Reports take a traffic light scoring format, making them easy to interpret.

WELLCOMM SPEECH AND LANGUAGE SCREENING TOOL.

Speech and Language Initiative. Continuing to promote happy and communicative children.

The early identification of any speech and language difficulty or delay is key to the progressive development of a young child's overall development.

Working together

These results will be shared with you as parents/carers, and you will be given ideas to help develop your child's speech and language.

Shared attention develops communication skills.....

They love the groups

Helps them listen and focus
