Able Gifted and Talented Policy 2024

Contents

1. Aims
2. Statement of Intent
3. Who are the Able and Gifted? Identification
4. Provision
5. Parental Involvement
6. Pastoral Support

'All that is good, all that is perfect, is given us from above; it comes down from the Father of all light; with him there is no such thing as alteration, no shadow caused by change.'

James 1:17

Introduction

Aims

At St. Michael & St. John's RC Primary School it is our intent to nurture and develop the whole child. The mission statement sets out our rationale for life and work in school with reference to Christ at the centre of all we do; St Michael & St John's Roman Catholic School aims to:

- Live as a Catholic community in which faith is expressed and shared through every aspect of its activity.
- Express this faith through daily prayer, celebration of the Sacraments of the Church, through works of charity and by striving for justice in all we do.
- Make each member of the school community feel loved and valued by developing relationships based on "Caring and Sharing" values.
- Celebrate the individual and recognise the God given talents that should be celebrated.
- Offer a broad and rich curriculum which is accessible to all children through the provision of high quality teaching and resources.
- Nurture and promote sustainable links with the parish, parents, carers, governors and global community, recognising the importance of this for the whole formation of each child.
- Promote a fully inclusive community which recognises and respects similarities and differences between people.
- Enable each individual in the school community to fulfil their potential through equal opportunities, continuous support and positive encouragement.

Statement of Intent

Our school aims to offer a secure and stimulating environment which meets the needs of individual pupils. We believe that all pupils are entitled to receive the support and challenge necessary to help them to develop their full potential. We recognise the importance of identifying a wide range of abilities and talents and of providing opportunities to nurture them. The needs of able, gifted and talented pupils are acknowledged as part of our overall inclusion policy. We believe in promoting inclusion and equality of opportunity.

We cannot assume that able pupils will automatically make appropriate progress. It depends on a range of environmental and personality factors, including supporting home, school and learning environments. To make sure that these pupils reach their potential, it is important to adopt and implement appropriate policies and practices to meet their educational and social/emotional needs. As for all other pupils, we aim to encourage and support the more able and talented through a broad based, relevant and challenging curriculum, encouraging the pursuit of excellence and celebrating the achievements of each pupil. We believe in extension in depth and enrichment in breadth.

In pursuing excellence in the education of able and talented pupils, the school seeks:

- To support teachers in recognising the wide range of pupils' talents and abilities.
- To encourage and support the development of alternative approaches to teaching and learning that engage, extend and challenge able and talented pupils at levels appropriate to their ability, within an ethos of high expectation.
- To provide additional opportunities to develop the experiences of our most able pupils.
- To provide professional development opportunities for teachers and other appropriate personnel.
- To encourage a dialogue between parents, staff and pupils in respect of pupils' special talents, abilities and developmental needs.
- To provide a supportive social, emotional, pastoral and educational environment, including the provision of opportunities for contact with similarly able or talented peers within school and the wider community.
- To clarify the roles and responsibilities of key personnel.
- To monitor the progress of and evaluate the impact of developments arising from this policy.
- To celebrate wider out of school success in a wider range of talents through our weekly Celebration Assembly.

Who are the able and talented?

The able and talented are defined as a cohort of between 5% and 10% of the schools' population by the DfES. The group is divided into the 'able' (the 'academically' most able, who demonstrate or have the potential to work at a level above their peers) and the 'talented' (those whose expertise lies in areas such as Drama, Dance, Music, Sport, Arts etc. Although others may use the term more generally, we identify 'gifted' pupils as those who demonstrate exceptional ability in one or more areas and represent 0.5% of the national population.

Identification

Identification will be undertaken using the following methods:

- Staff nomination
- Book Looks across different areas
- Electronic evidence gathered and stored (in subjects like Music and PE)
- Staff Meeting with AGT focus
- Teacher assessment
- NTS Termly Assessments
- Lancashire Tracker
- Able and gifted will be highlighted on class tracking documents.

Provision

Able pupils have diverse needs and there is no one "catch-all" approach to teaching and learning. Appropriate progress will not be made without structured guidance and support. As with the 5 a day approach used as a strategy for SEND pupil's alternative lessons for G & T pupils are not required but it is expected the class teacher enhances the provision using strategies that challenge more able pupils and aim to deepen knowledge and challenge thinking. Enhanced teaching and learning approaches suited to the needs of able pupils can be developed on a whole-school basis and built into lesson planning. Ideally, able pupils will experience a mixture of enrichment and extension activities.

Enrichment – Broadening study by including elements outside the National Curriculum.

Extension – Studying the standard curriculum in more depth and increasing complexity and challenge. Challenging thinking and using embedded knowledge to use and apply to current learning. Explaining thinking of critical key questions. Use of technology could also enhance learning further allowing children the opportunity to use multiple skills together.

Children will be given opportunities to enhance the curriculum outside the classroom through the provision of clubs, visits, challenges etc. The Clitheroe Cluster of Schools gathers together throughout the school year to celebrate the G & T groups of children for different aspects.

Parental Involvement

This is a three-way partnership between parents, the student and the school. Parents receive a half termly report and have a half termly parents evening where

children's academic and other talents are celebrated and recognised so Parents are kept fully informed.

Pastoral Support

It is important to avoid stereotyping able pupils as each child is an individual and some children may need more support than others. At St. Michael & St. John's RC Primary School it is our aim to provide an environment in which able pupils feel secure enough to display their ability, to take risks and to fail.

Monitoring and Evaluation

A range of quantitative data is available to assist in the monitoring process: the attainment of higher examination grades, value-added analysis of assessment data by ability group, target setting, school development planning, performance management structures and pupil progress meetings.
